GENERAL COUNSEL'S REPORT COVER PAGE

February 22, 2017

A. Report to Agency Members

Wharton Nursing Home, Pleasant Hill (Cumberland County), TN - CN1403-006A

Per the Agency's June 22, 2016 Delegation of Authority Policy, a 29% cost over-run was approved based on the following:

- The project was complete and received a certificate of occupancy from the Tennessee Department of Health on August 4, 2016;
- Upgrades to the proposed project improved the project (upgraded kitchen equipment and IT changes related to patient care);
- Construction cost variance due to elapsed time between feasibility study project planning stage and the time the construction bids were let (18 months) and the project was completed (a total of 36 months);
- Financing costs (capitalized interest and debt service) were omitted from the original application.

The project included a construction/renovation project that relocated 31* of the existing 62 dually certified nursing home beds to an adjacent building on the campus of Uplands Village, a continuing care retirement community. The 31 beds were relocated from an existing building at 878-880 West Main Street to 55 West Lake Road which is where Wharton Nursing Home was previously located. All 62 beds are operated under the same license. The estimated project cost was \$5,100,000.00. With the cost increase, the final project cost is \$6,593,529, a difference of \$1,493,529.

*These beds are not subject to the 2013-2014 Nursing Home Bed Pool.

State of Tennessee

Health Services and Development Agency

February 7, 2017

Richard Woodard, Executive Director Uplands Village, Wharton Nursing Home P. O. Box 168 Pleasant Hill, TN 38578

RE:

Wharton Nursing Home, CN1403-006A

Dear Mr. Woodard:

The purpose of this letter is to notify you that approval has been granted for the modification (29% cost increase) described in your January 29, 2017 letter to me. This changes the final project cost from \$5,100,000 to \$6,593,529, a difference of \$1,493,529. This approval was granted pursuant to the Health Services and Development Agency's Delegation of Authority Policy enacted on June 22, 2016 which permits the executive director to grant approval or denial of modifications, changes of conditions or ownership, and extensions of certificates of need. The cost increase was approved because:

- The project was complete and received a certificate of occupancy from the Tennessee Department of Health on August 4, 2016;
- Upgrades to the proposed project improved the project (upgraded kitchen equipment and IT changes related to patient care);
- Construction cost variance due to elapsed time between feasibility study project planning stage and the time the construction bids were let (18 months) and the project was completed (a total of 36 months);
- Financing costs (capitalized interest and debt service) were omitted from the original application.

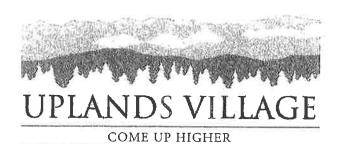

The modification was granted effective February 2, 2017 so there is no need to attend the February 22, 2017 HSDA meeting for this request.

Sincerely,

Melanie M. Hill Executive Director

ela . M. Will

RE: Certificate of Need No. CN 1403-006A
Wharton Nursing Home, Owner Uplands Village, Pleasant Hill, TN
Request for Substantive Amendment due to cost variance

Dear Ms. Hill:

Uplands Village, dba Wharton Nursing Home, respectfully requests the consideration and amended approval by the General Counsel, Health Services and Development Agency for the above listed Certificate of Need matter.

Attached is form HF-0055, identifying budgeted and final project costs. The variances in final project costs are further delineated in this communication.

The project scope:

- relocation of 31 of 62 dually certified ICF/SNF beds to adjacent building which was partially vacant,
- · new physical therapy and wellness gyms
- · dining services for residents in facility and independent living residents,
- · and, renovation of administrative and support areas.

The completed project addressed all items above. During construction period, it was determined that expansion of kitchen and dining area, to better address dietary needs of the entire campus was necessary. This change order was not fully calculated, but costs related to replacement/upgrade of commercial kitchen equipment is a contributor to cost overrun.

Total Project Cost Variance:

CON Budget for construction (\$3,817,350) was projected at \$90.00 per square foot. Total CON Budget of \$5,088,550 was \$119.97/ sf.

Actual project cost for construction (4,324,314814) is \$101.95 / sf, a 13.3% increase. Total project cost of \$6,139,815, excluding capitalized interest and Debt Service Reserve, is \$144.76 / sf. This represents a 21% increase.

1

Financing Costs and Fees:

The original CON application did not include or address this section of expenses.

- The final project cost inclusion of \$302,640 represents the one-year maximum debt service reserve to be established through funding as required by USDA Rural Development Agreement.
- Capitalized Interest, totaling \$139,597 represents that portion of interest related to the Wharton Nursing Home project, financed by USDA Rural Development Agency.

Uplands Village respectfully requests acknowledgement of the submission of these costs and permitted inclusion in the total project variance costs.

Construction Cost Variance:

Uplands Village believes the principle cost of variance in construction cost is due to time factor from initial feasibility to actual project, 36 months.

- Based on 06/2013 feasibility study, projected construction costs of \$3,762,720 were incorporated into CON application.
- In July, 2014, upon CON approval; construction bids were sought. Low bid was \$4,866,746. Note final change orders increased price only \$34,384, totaling \$4,901,130.
- Construction expenses incurred, but not part of the general contractor scope of work, totaled \$20,693, less than 0.5% of construction costs.

Uplands Village requests approval of contractor construction fees increased due to market conditions and project timing.

Equipment Cost Variance:

- · As referenced above, upgrade to kitchen and dining furnishings
- Uplands Village sought and received a total of \$6,500,00 from USDA financing for three projects. In addition to the Wharton Nursing Home renovation project, funds were allocated for construction of an aquatic center (\$750,000) and expansion of and purchase of new I.T. technology and operating system (\$405,000). In May, 2016 Uplands sought and was granted an additional \$500,000 from USDA Rural Development for further investment in its I.T. technology program.
- These additional technology upgrades to accommodate new electronic medical records, bedside record keeping, wireless connectivity, creation of I.T. skills lab for staff and community were added/included during renovation of building.

Uplands Village requests approval of equipment cost variance \$392,372, related to I.T. and dietary enhancements incorporated into the project.

Chronology

Date	Activity	Notes
06/19/2013	Upland Design Group Architectural Feasibility Study	UDG engaged to provide facility assessment and projected cost for renovation (with new construction comparative costing). Renovation of Rehabilitation Facility: \$3,797,720 Architect Fees, Interest, Equipment and Contingency: \$1,945,280 Total: \$5,743,000 Feasibility projected construction project at \$90.00 / square foot, based on 42,415 sf.
3/11/2014	Uplands Village (Wharton Nursing Home)	CON application submitted with project estimates of: Architectural, soft costs, site prep - \$522,015 Equipment - \$749,185 Construction - \$3,817,350 Total - \$5.088,550 (Equipment projected costs reduced \$405,000)
7/23/2014	State of TN, Health Services and Development Agency	Contingent CON (1403-006) approval, dated 6/25/14 granted to Uplands Village Total <u>- \$5,100,000</u> , inclusive of CON fee
12/10/2014	Upland Design Group, Uplands Village and Denark Construction	Competitive Bids received eighteen months after original feasibility study. Bids were reviewed and project awarded to Denark Construction Low bid \$4,866,746 (as compared to total construction costs in CON application of \$3,817,350 (\$114.74/sf) - a \$1,049,400 increase.
08/04/2016	State of TN, Health Services and Development Agency	Certificate of occupancy, project deemed complete.

Cost Factors	Original	Final	Variance	Explanation
